# Job Shadow 2009

## Professional Development for Undergraduate and Graduate Students

The reasons to join MMANC just got even better! Students wanting to expand their network in local government and learn more about what it is like working in the front lines of a city, county or special district, are invited to participate in The Job Shadow 2009 Program.

Job Shadow 2009 is a great opportunity to meet and start professional relationships with executive-level local government managers by spending a half-day following them in their daily schedule. It is a chance to see firsthand what it takes to work at the executive level of the organization.

The Municipal Management Association of Northern California (MMANC) is sponsoring this Half-Day Job Shadow opportunity for the first time, and will match you with an Executive-Level Professional in a Local City or County Government, or Special District near your university. For any student who wants to learn more about what local government is about, this is an opportunity not to miss.

Students interested in this program should complete the application online by Tuesday, October 20, 2009. Student Membership in MMANC is required to participate in this program. The membership is only \$25 per year and provides you with many professional development benefits. Online registration can be found at: <http://www.mmanc.org/membership>.

Placement is limited and students will be placed on a first come, first serve basis. Students must be members of MMANC by October 20th to participate.
