Springtime is nearly upon us...and you know what that means. It's time for MMANC's Annual Women's Leadership Summit! This is the fourth year MMANC has put on this widely successful two-day event, where hundreds of women gather for a chance to be inspired from each other's experiences in local government or other public agencies, build their network, and get answers to questions they have always wanted to ask of other women in the profession.

The theme of this year's Summit is simply, "*Back to Basics*" and the line-up of presenters is impressive to say the least.

Jennifer Phillips, Assistant City Manager

Sally Reed, former County Administrator Officer of Los Angeles

Pat Martel, City Manager of Daly City

Laura Chick, Inspector General, State of California

The Women's Leadership Summit is an event you do not want to miss. Come to the 2010 Summit and walk away with stronger fundamental leadership skills, tips on how to move forward in your career, and a deeper network with the women who share the same passions you do in serving the communities of Northern California.

Early
Registration
Ends

March 15
